Supporting Global Goal 3: Good health and Well-being

y e a r 1	Autumn	Spring	Summer
	Plants 1 Animals including humans 2 Seasonal Changes (Data collection over 3 terms)	Animals including humans 3 Everyday Materials 4 Seasonal Changes (Data collection over 3 terms)	Seasonal Changes 5
Plants I can identify and name a variety of common wild and garden plants, including deciduous and evergreen trees. I can identify and describe the basic structure of a variety of common flowering plants, including trees. Vocabulary: common, wild plants, garden, deciduous, evergreen, trunk, branches, leaf, root, plant, leaves, bud, blossom, petals, stem, fruit, vegetables, bulbs, seeds	Animals including humans I can identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals. I can identify and name a variety of common animals that are carnivores, herbivores and omnivores. I can describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, birds and mammals, including pets). Vocabulary: fish, amphibians, reptiles, birds, insects, mammals, carnivores, human, animal, food	Seasonal Changes I can observe changes across the four seasons. I can observe and describe weather associated with the seasons and how day length varies. Vocabulary: summer, winter, autumn, spring, daytime, wind, rain, snow, hail, sleet, fog, sun, warm, cold, hot	
Animals including humans I can identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense. <i>I understand that there are tiny creatures that are invisible to the naked eye and some of these can cause illness so we must learn how to wash hands.</i> Vocabulary: Names of body parts, vision, hearing, touch, smell, taste	Everyday Materials I can distinguish between an object and the material from which it is made. I can identify and name a variety of everyday materials, including wood, plastic, glass, metal, water, and rock. I can describe the simple physical properties of a variety of everyday materials. I can compare and group together a variety of everyday materials on the basis of their simple physical properties. Vocabulary: Wood, plastic, glass, metal, water, rock, hard, soft, stretchy, stiff, shiny, dull, rough, smooth, bendy, not bendy, absorbent, waterproof, material

Supporting Global Goal 3: Good health and Well-being

		Autumn	Spring	Summer
Year 2		Living things and their habitats 1	Plants 2 (Re-visited throughout the year) Animals including Humans 3	Uses of everyday materials 4
		<p>Living things and their habitats</p> <p>I can explore and compare the differences between things that are living, dead, and things that have never been alive. I can identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other. I can identify and name a variety of plants and animals in their habitats, including micro-habitats. I can describe how animals obtain their food from plants and other animals, using the idea of a simple food chain, and identify and name different sources of food.</p> <p>Vocabulary: living, dead, never alive, habitat, micro-habitat, food chain, conditions, rainforest, woodland, seashore, ocean, dry, damp, wet</p>	<p>Plants</p> <p>I can observe and describe how seeds and bulbs grow into mature plants. I can find out and describe how plants need water, light and a suitable temperature to grow and stay healthy</p> <p>Vocabulary: names of plant parts, conditions, light, suitable, temperature, healthy, grow, germination,</p>	<p>Uses of everyday materials</p> <p>I can identify and compare the suitability of a variety of everyday materials, including wood, metal, plastic, glass, brick, rock, paper and cardboard for particular uses. I can find out how the shapes of solid objects made from some materials can be changed by squashing, bending, twisting and stretching.</p> <p>Vocabulary: names of materials, squashing, bending, stretching, bending, twisting, absorbent, waterproof, material, rubber, brick, rock</p>
			<p>Animals including Humans</p> <p>I can notice that animals, including humans, have offspring which grow into adults. I can find out about and describe the basic needs of animals, including humans, for survival (water, food and air). I can describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene. <i>I understand what can be classed as exercise and to investigate what happens to their body (heart rate) when they exercise.</i> <i>I understand the difference between an allergy and not liking something.</i></p> <p>Vocabulary: offspring, adults, survival, food, air, exercise, hygiene, nutrition, reproduce</p>

Breadth of Study

Supporting Global Goal 3: Good health and Well-being

y e a r	Autumn	Spring	Summer
	3	Plants 1 <i>Revisited throughout the year</i> Animals including humans 2	Rocks 3 Light 4
	<p>Plants</p> <p>I can identify and describe the functions of different parts of flowering plants: roots, stem/trunk, leaves and flowers I can explore the requirements of plants for life and growth (air, light, water, nutrient from soil, and room to grow) and how they vary from plant to plant . I can investigate the way in which water is transported within plants. I can explore the part that flowers play in the life cycle of flowering plants, including pollination, seed formation and seed dispersal.</p> <p>Vocabulary: flower/plant parts, nutrients, structure, support, soil, light, room to grow, fertiliser, pollination, seed formation, seed dispersal</p>	<p>Rocks</p> <p>I can compare and group together different kinds of rocks on the basis of their appearance and simple physical properties. I can describe in simple terms how fossils are formed when things that have lived are trapped within rock. I can recognise that soils are made from rocks and organic matter.</p> <p>Vocabulary: rocks, soil, absorbent, permeable, texture, characteristics, surface, names of different rocks</p>	<p>Forces and Magnets</p> <p>I can compare how things move on different surfaces. I can notice that some forces need contact between 2 objects, but magnetic forces can act at a distance. I can observe how magnets attract or repel each other and attract some materials and not others. I can compare and group together a variety of everyday materials on the basis of whether they are attracted to a magnet, and identify some magnetic materials. I can describe magnets as having 2 poles. I can predict whether 2 magnets will attract or repel each other, depending on which poles are facing.</p> <p>Vocabulary: force, push, pull, surface, magnetic, attract, repel, magnetic poles, north, south</p>
	<p>Animals including humans</p> <p>I can identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat I can identify that humans and some other animals have skeletons and muscles for support, protection and movement. <i>I can talk about what constitutes a healthy diet (including understanding calories and other nutritional content).</i> <i>I understand the principles of planning and preparing a range of healthy meals.</i></p> <p>Vocabulary: nutrition, carbohydrates, proteins, fats, fibre, vitamins, minerals, skeleton, muscles, names of different joints</p>	<p>Light</p> <p>I can recognise that they need light in order to see things and that dark is the absence of light. I can notice that light is reflected from surfaces. I can recognise that light from the sun can be dangerous and that there are ways to protect their eyes. I can recognise that shadows are formed when the light from a light source is blocked by a solid object. I can find patterns in the way that the size of shadows change. <i>I understand about safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer.</i></p> <p>Vocabulary: light, reflect, surface, block, natural, shadow, torch artificial, protect eyes, sun, dangerous</p>	

Science Overview

Breadth of Study

Supporting Global Goal 3: Good health and Well-being

y e a r 4	Autumn	Spring	Summer
		Living things and their habitats 1 (revisited throughout the year) Animals including humans 2	States of matter 3 Sound 4
	Living things and their habitats I can recognise that living things can be grouped in a variety of ways. I can explore and use classification keys to help group, identify and name a variety of living things in their local and wider environment. I can recognise that environments can change and that this can sometimes pose dangers to living things. Vocabulary: environment, flowering, non flowering, vertebrate, invertebrates, names of vertebrates and invertebrates, positive/negative human impact	States of Matter I can compare and group materials together, according to whether they are solids, liquids or gases. I can observe that some materials change state when they are heated or cooled, and measure or research the temperature at which this happens in degrees Celsius (°C) I can identify the part played by evaporation and condensation in the water cycle and associate the rate of evaporation with temperature. Vocabulary: solid, liquid, gas, solidify, melt, freeze, evaporate, condense, water vapor change in state, temperature, heated, cooled	Electricity I can identify common appliances that run on electricity. I can construct a simple series electrical circuit, identifying and naming its basic parts, including cells, wires, bulbs, switches and buzzers. I can identify whether or not a lamp will light in a simple series circuit, based on whether or not the lamp is part of a complete loop with a battery. I can recognise that a switch opens and closes a circuit and associate this with whether or not a lamp lights in a simple series circuit. I can recognise some common conductors and insulators, and associate metals with being good conductors. Vocabulary: appliances, electricity, circuit, cell, wire, bulb, buzzer, insulator, conductor, names of insulators and conductors, switch
	Animals including Humans I can describe the simple functions of the basic parts of the digestive system in humans. I can identify the different types of teeth in humans and their simple functions. I can construct and interpret a variety of food chains, identifying producers, predators and prey. I can recognise the symptoms (mild and severe) of an allergic reaction? I can find out what damages teeth (including tooth decay) and how to look after them. I understand the importance of regular check ups at the dentist. Vocabulary: digestion, mouth, tongue, saliva, stomach, oesophagus, acid, small intestine, large intestine, absorb, compact, incisor, canine, molar, floss, producer, prey, predator, carnivore, herbivore, omnivore	Sound I can identify how sounds are made, associating some of them with something vibrating I can recognise that vibrations from sounds travel through a medium to the ear I can find patterns between the pitch of a sound and features of the object that produced it I can find patterns between the volume of a sound and the strength of the vibrations that produced it I can recognise that sounds get fainter as the distance from the sound source increases. Vocabulary: vibration, air, medium, ear, hear, sound, volume, pitch, faint, loud, percussion

y e a r 5	Autumn	Spring	Summer
	Living things and their habitats 1	Properties and changes of materials 3	Forces 5
	Animals including Humans 2	Earth and Space 4	
<p>Living things and their habitats</p> <p>I can describe the differences in the life cycles of a mammal, an amphibian, an insect and a bird.</p> <p>I can describe the life process of reproduction in some plants and animals.</p> <p>Vocabulary: mammal, amphibian, insect, bird, plant reproduction, prehistoric, similarities, differences</p>	<p>Properties and changes of materials</p> <p>I can compare and group together everyday materials on the basis of their properties, including their hardness, solubility, transparency, conductivity (electrical and thermal), and response to magnets.</p> <p>I know that some materials will dissolve in liquid to form a solution, and describe how to recover a substance from a solution.</p> <p>I can use knowledge of solids, liquids and gases to decide how mixtures might be separated, including through filtering, sieving and evaporating.</p> <p>I can give reasons, based on evidence from comparative and fair tests, for the particular uses of everyday materials, including metals, wood and plastic.</p> <p>I can demonstrate that dissolving, mixing and changes of state are reversible changes.</p> <p>I can explain that some changes result in the formation of new materials, and that this kind of change is not usually reversible, including changes associated with burning and the action of acid on bicarbonate of soda.</p> <p>Vocabulary: properties, hardness, solubility, transparency, electrical conductor, thermal conductor, dissolve, solution, separate, solids, liquids, gasses, reversible, mixing, evaporating, filtering, sieving, irreversible, measurements, chemical, insulation</p>	<p>Forces</p> <p>I can explain that unsupported objects fall towards the Earth because of the force of gravity acting between the Earth and the falling object.</p> <p>I can identify the effects of air resistance, water resistance and friction that act between moving surfaces.</p> <p>I can recognise that some mechanisms, including levers, pulleys and gears, allow a smaller force to have a greater effect.</p> <p>Vocabulary: gravity, air resistance, water resistance, friction, surface, force, effect, move accelerate, decelerate, mechanism, pulley, gear</p>	
<p>Animals including Humans</p> <p>I can describe the changes as humans develop to old age.</p> <p>I understand the importance of personal hygiene and I know about germs including bacteria and viruses. I know how they are spread and treated, and the importance of handwashing.</p> <p>I understand the importance of building regular exercise into daily and weekly routines and how to achieve this; for example walking or cycling to school, a daily active mile or other forms of regular, vigorous exercise.</p> <p>I understand the importance of sufficient good quality sleep for good health and that a lack of sleep can affect weight, mood and ability to learn.</p> <p>I can recognise early signs of physical illness, such as weight loss, or unexplained changes to the body.</p> <p>Vocabulary: puberty, life cycle, gestation, growth, reproduce, foetus, toddler, child, teenager, adult, life expectancy, adolescence</p>	<p>Earth and Space</p> <p>I can describe the movement of the Earth, and other planets, relative to the Sun in the solar system.</p> <p>I can describe the movement of the Moon relative to the Earth.</p> <p>I can describe the Sun, Earth and Moon as approximately spherical bodies.</p> <p>I can use the idea of the Earth's rotation to explain day and night and the apparent movement of the sun across the sky.</p> <p>Vocabulary: Earth, sun moon, planets, stars, solar system, names of the planets, rotate, spherical, hemisphere, tilt, season</p>		

Article 24: Every child has the right to the best possible health... nutritious food... stay healthy.

Article 29: Education must develop every child's personality, talents and abilities to the full.

Science Overview

Breadth of Study

Supporting Global Goal 3: Good health and Well-being

	Autumn	Spring	Summer
y e a r 6	Living things and their habitats 1	Evolution and inheritance 3	Electricity 5
	Animals including humans 2	Light 4	
	<p>Living things and their habitats</p> <p>I can describe how living things are classified into broad groups according to common observable characteristics and based on similarities and differences, including microorganisms, plants and animals I can give reasons for classifying plants and animals based on specific characteristics.</p> <p>Vocabulary: classify, compare, domain, kingdom, phylum, class, order, family, genus, species, characteristics, organisms, microorganism, vertebrate, invertebrate</p>	<p>Evolution and inheritance</p> <p>I can recognise that living things have changed over time and that fossils provide information about living things that inhabited the Earth millions of years ago. I can recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents. I can identify how animals and plants are adapted to suit their environment in different ways and that adaptation may lead to evolution.</p> <p>Vocabulary: evolution, adaption, inherited traits, adapted traits, natural selection, inheritance, DNA, genes, variation, fossilisation</p>	<p>Electricity</p> <p>I can associate the brightness of a lamp or the volume of a buzzer with the number and voltage of cells used in the circuit. I can compare and give reasons for variations in how components function, including the brightness of bulbs, the loudness of buzzers and the on/off position of switches. I can use recognised symbols when representing a simple circuit in a diagram.</p> <p>Vocabulary: voltage, brightness, volume, switches, series circuit</p>
	<p>Animals, including humans</p> <p>I can identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood. I can recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function. I can describe the ways in which nutrients and water are transported within animals, including humans. <i>I understand the impact of alcohol on diet and health.</i> <i>I can identify characteristics and physical benefits of an active lifestyle</i> <i>I understand risks associated with an inactive lifestyle (including obesity).</i> <i>I can learn the facts and science relating to allergies, immunisation and vaccination.</i></p> <p>Vocabulary: internal organs, heart, lungs, liver, kidney, brain, skeleton, muscle, digestive, circulatory system, blood vessels, life style, drugs, alcohol, substances</p>	<p>Light</p> <p>I can recognise that light appears to travel in straight lines. I can use the idea that light travels in straight lines to explain that objects are seen because they give out or reflect light into the eye. I can explain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyes. I can use the idea that light travels in straight lines to explain why shadows have the same shape as the objects that cast them.</p> <p>Vocabulary: light, travels, light sources, reflect, reflection, shadows, periscope, filter</p>
