All About Picasso ✓ Good piece of writing.

Pablo Ruiz Picasso was a Spanish painter, sculptor, printmaker, ceramicist and theatre designer. Picasso was born on 25th October 1881. Unfortunately, he passed away on 8th April 1973. Well... Picasso is important because for nearly 80 of his 91 years, Picasso devoted himself to an artist production that contributed significantly to the whole development of modern art in the 20th century, notably through the invention of Cubism (with the artist Georges Braque) about 1907. Pablo Ruiz Picasso was making more and more artwork and noticed archaic and tribal art that encouraged Picasso to lend his figures more structure and ultimately set him on the path towards Cubism. The abstract tribal art was created by Paul Cézanne and Henri Rousseau. Furthermore, he passed away at the age of 91 years old and spent his life in France.
